

A diagram consisting of a horizontal row of six squares and a vertical column of three squares, all set against a light gray background. The horizontal row, from left to right, contains: a light blue square, a dark blue square, a light orange square, a light blue square, a light orange square, and a light orange square. The vertical column, from top to bottom, contains: a red square, a light orange square, and a red square. The light orange square in the vertical column is positioned directly below the light orange square that is the fifth square from the left in the horizontal row.
